CUSTOMER SINCE 2013

WHY WYSIWASH?

Powerful: Effective against hard-to-kill non-enveloped viruses like parvovirus and calicivirus with independent testing on coronavirus.

Incredible Deodorizer: Wysiwash erases smells by targeting odor causing bacteria.

Long Lasting: Each caplet lasts up to 3 hours.

Biodegradable: Safe to use on plants, artificial turf, and gravel.

INDOOR USES

Clean locker rooms, public showers, and changing areas.

Deodorize and sanitize food prep areas, walk-in refrigerators, and other equipment.

OUTDOOR USES

Sanitize park furniture, play structures, spray grounds, and other public areas.

Safe to use near pools to sanitize & prevent mildew, will not destabilize pool pH.

Deodorize artificial turf, gravel, and grass.

Prevent mildew on decks, walls, fences, & patio furniture.

THREE STEPS TO SANITIZE

Wysiwash is the only system that makes sanitizing large areas as easy as hosing them down. Just follow these three easy steps!

Step 1: Insert a Wysiwash Jacketed Caplet.

Step 2: Connect Wysiwash to a standard garden hose.

Step 3: Turn on & spray Wysiwash to sanitize, deodorize, & neutralize mold.

LESS THAN A PENNY PER MIXED GALLON!

"IT LITERALLY TAKES ABOUT 10 MINUTES TO CLEAN AND SANITIZE ABOUT A 300 SQ FOOT AREA, MEANING I DO IT A LOT MORE OFTEN."

KEVIN L.
AMAZON 5 STAR REVIEW

WHEN YOU NEED TO SANITIZE HUNDREDS OF SQUARE FEET, YOU NEED THE WYSIWASH SANITIZING SYSTEM.

The Wysiwash Sanitizer-V & Sanitizer Pro are more than just hose-end sprayers. Our patented hydro-injection system is scientifically designed to mix and dispense a precisely calibrated, effective, safe, sanitizing solution **as you spray it**.

This innovative dispensing technology allows a mild, eco-friendly sanitizing solution to be more effective than liquid bleach or harsh disinfectants.
