Aquatic Facility Operator Certification Course

Phoenix, Arizona
April 26 - 27, 2016

Presented by:

in conjunction with
NRPA Aquatic Section

The AFO Course is designed for those who are responsible for operating clean, safe and efficient aquatic facilities. The course offers in-depth instruction on filtration, disinfection, water testing and treatment, design considerations, facility management, risk management, facility troubleshooting and much more!

The Aquatic Facility Operator Certification Course is a training program specifically intended to meet the needs of those working in public and semi-public recreation pool or waterpark facilities. The AFO program offers a unique discussion of risk management, not usually offered to operations personnel.

Become nationally certified as an AFO and receive a certificate of completion suitable for framing. This 16-hour course features the new Aquatic Facility Operator Manual, one of the most respected publications available on pool operations. This text is not only understandable, you will enjoy reading it and it can be used as a reference on day-to-day operations. The text can be sent to you in advance for a small extra charge.
